

Immunoanalyzers

# Powerful Precision

For the benefit of the patient

Thermo Scientific™  
B-R-A-H-M-S™ KRYPTOR™ compact PLUS

Thermo Scientific™  
B-R-A-H-M-S™ KRYPTOR™ GOLD

# Uncompromised quality – supporting relevant clinical decisions

## TRACE™ Technology exclusively available on B·R·A·H·M·S KRYPTOR Analyzers

B·R·A·H·M·S KRYPTOR Analyzers are fully automated random-access benchtop immunoanalyzers that use TRACE\* Technology to derive uncompromised quality for safe patient management.

- Trusted results with outstanding precision
- Reliable decisions from low interference
- Optimized workflow with self-determining dilution factor
- Unique assays in essential indications

# To keep the path under control

with gold standards in Endocrinology

## Proven quality in Thyroid diagnostics

- Using human and native assay components for improved clinical sensitivity and specificity
- TRAK human – the gold standard in the diagnosis, prognosis and follow-up of Graves' disease and Graves' Ophthalmology disease
- Highly sensitive Thyroglobulin assay with minimal assay interferences and detection of all possible interferences for reliable follow-up in thyroid cancer patients
- Copeptin proAVP – the better vasopressin, the novel standard for differential diagnosis of diabetes insipidus

Find out more at [thermoscientific.com/brahms](https://thermoscientific.com/brahms)

# To keep the future bright

## using the gold standard in Prenatal Screening

### Prenatal Screening markers on B·R·A·H·M·S KRYPTOR Analyzers – the gold standard

- High sensitivity and exceptional precision in Prenatal Screening assays for confident clinical decisions
- Highest quality of B·R·A·H·M·S KRYPTOR Analyzers, assays and risk calculation software leading to the best performance for seamless laboratory workflow
- Complete Pre-eclampsia management portfolio covering 1<sup>st</sup> trimester screening as well as diagnosis and prognosis after week 20 for improved patient care

The preferred provider of a complete Prenatal Screening solution throughout pregnancy

Find out more at [thermoscientific.com/brahms](https://thermoscientific.com/brahms)

# To take control

## manage bacterial Infections effectively

### B·R·A·H·M·S PCT – excellent clinical evidence to manage bacterial infections

- Differentiate bacterial infection from other causes of inflammation
- Facilitate targeted use of antibiotics for effective and safe reduction of antibiotic exposure with clinically proven cut-offs and algorithms
- B·R·A·H·M·S PCT sensitive KRYPTOR – the reference assay for PCT testing

### Superior risk stratification with MR-proADM

- Early identification of microcirculatory damage and organ dysfunction
- Identifies patients at a high risk of adverse complications
- Safely increases out-patient processing through enhanced discharge management

Find out more at [thermoscientific.com/brahms](https://thermoscientific.com/brahms)

# To keep safe in risky situations

## instant identification and differentiation in Acute care

### Exclusion of Acute Myocardial Infarction combining Copeptin proAVP with cardiac Troponin with a single blood draw

- Relieve emergency room overcrowding, shorten the length of stay and save staff time

### Natriuretic peptides are the golden standard for the differentiation of acute heart failure from non-cardiac causes of acute dyspnoea

- MR-proANP used to establish a diagnosis of acute heart failure with additional diagnostic utility in the Brain natriuretic peptide grey zone and in obese patients
- Highest level of recommendation in the European Society of Cardiology Heart Failure Guidelines

Find out more at [thermoscientific.com/brahms](https://thermoscientific.com/brahms)

# To keep every place occupied

recognize the signs in time in cancer patients

## Confident follow-up in cancer patients

- Making sure every change in the marker is coming from the disease and not caused by the imprecision of the analyzers or by interfering substances
- Excellent precision for optimal patient follow-up and confident decision
- Broad tumor marker portfolio available

## Meeting today's needs is just our starting point – we strive to exceed our customer's future expectations

We have more than 25 years of experience in developing biomarkers. With our excellent clinical and technological expertise, we strive to support our customers with products and services that go beyond their expectations. We have the objective to enrich the quality of our customers' work and enable Clinicians to improve patient management.

Our high-end analytical analyzers, laboratory equipment, software, services, consumables and reagents help our customers solve complex analytical challenges, improve patient diagnostics and increase laboratory productivity.

Thermo Fisher Scientific's mission is to enable our customers to make the world healthier, cleaner and safer.
